

A fusion of Tech and affordable Housing

About Us

We are a consortium of the foremost construction and Real Estate companies in Nigeria.

Our core competence is centred on the construction industry and related integrated services. We have made our mark, and built a reputation for excellence in all our projects, by giving value to clients who demand and appreciate the best. As new technologies emerge throughout the construction industry, innovative ideas are required to maintain and deliver successful construction projects. Nasarawa Technology Village provides innovative and cost-effective solutions required to meet modern construction project needs.

ABS Blueprint Consortium has signed a joint venture agreement with the Nassarawa State Government for the establishment of the Nassarawa Technology village.

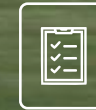

We believe that a world in which only a few can afford housing is not sustainable. Everyone deserves a safe place to live: it can transform the quality of life of individuals and families. Today, however, most cities around the country are facing major challenges in providing safe and adequate housing for their people, especially cities that are growing rapidly. We believe that Nassarawa is ready for this change.

Set in harmony with its natural surroundings, the estate is serene, and will be located at New Karu, Nassarawa State.

What makes this project unique is that it will contribute to the creation of community relationships; seeing that we are not only aimed at providing affordable housing for low income groups, this project will improve the quality of living amongst same low income earners.

OUR MASS HOUSING PROJECT WILL:

Provide social and cultural amenities for the well-being of residents

Improve the living conditions of its residents.
